

'Bunker' Building Template.

For construction with 5-6mm foamcore, .5mm card and the Maelstrom's Edge terrain sprue.

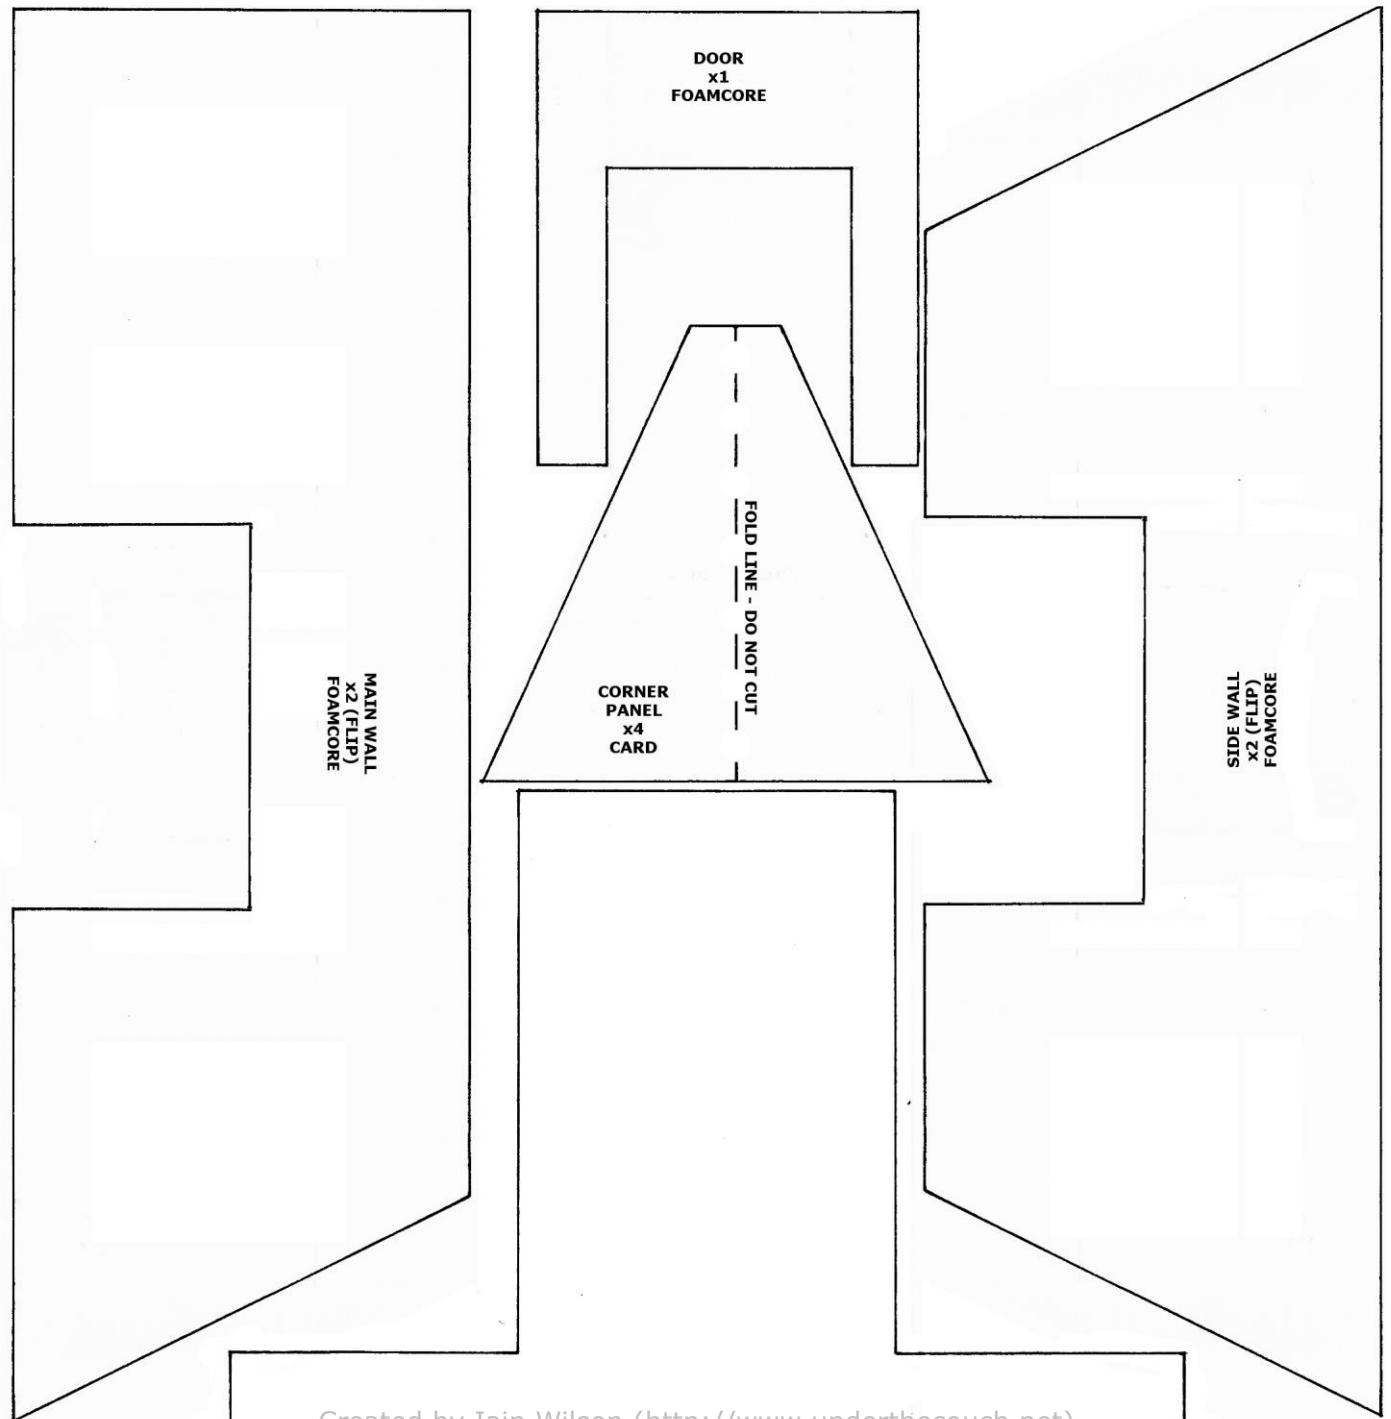

Print the template page – Make sure you select 'Actual Size' rather than the default 'Fit' in the print dialogue.

Cut out the panels with a sharp knife and a steel ruler.

You can then use these panels as templates to mark foamcore and cardboard to build the bunker.

For building instructions, visit <http://www.thecommguild.com/roller/thecommguild/entry/bunker>

Created by Iain Wilson (<http://www.underthecouch.net>)
April 2017 - for use in Maelstrom's Edge.

Maelstrom's Edge ® is a registered trademark of Spiral
Arm Studios Ltd, registered with WIPO, The European
