

# 'Minehead' Building Template.

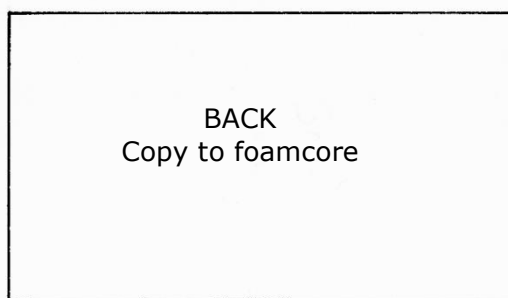

For construction with 5-6mm foamcore, .5mm card and the Maelstrom's Edge terrain sprue.

**Print this page – Make sure you select 'Actual Size' rather than the default 'Fit' in the print dialogue.**

**Cut out the panels with a sharp knife and a steel ruler.**

**You can then use these panels as templates to mark foamcore and cardboard to build the minehead structure.**

For building instructions, visit <http://www.thecommguild.com/roller/thecommguild/entry/minehead>

Created by Iain Wilson (<http://www.underthecouch.net>), April 2017 – for use in Maelstrom's Edge.

Maelstrom's Edge ® is a registered trademark of Spiral Arm Studios Ltd, registered with WIPO, The European Union, The United Kingdom and variably around the world.
